### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 19. (currently amended) A method of producing plates from plastic, including acrylates, with elevations, comprising the step of utilizing an endless steel band according to ~~claims~~ claim 1.

### ***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest steel press band of thickness 2-4 mm and roughness up to RZ 50.5  $\mu\text{m}$ , wherein the band further comprises an even distribution of depressions extending inwardly from the surface 200-600  $\mu\text{m}$ .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

Applicant's arguments filed May 5, 2006 have been fully considered.

The amendments to the claims have overcome the rejections set forth previously under 35 U.S.C. 112, second paragraph and under 35 U.S.C. 101.

In view of the arguments and amended claims, the rejections set forth previously under 35 U.S.C. 103(a) based on Werthmann (DE 29 50 795) or Stadler et al (US 6,436,553) have been withdrawn. It is recognized that the prior art press bands disclosed in the applied references and elsewhere do not have the claimed structure including the depth and distribution of depressions and cannot be used to produce plates with elevations as claimed.

A complete English translation of Werthmann DE 29 50 795 is herein provided.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bielfeldt (US 5,088,398), Harreither (US 5,021,102), Held (US 4,573,404) disclose various double band presses.
